

First Announcement and Call for Papers:

Workshop of the Working Group „Bayes Methods“ (International Biometric Society, German Region)

University of Göttingen, 06-07/12/2018

Bayesian methods in the development and assessment of new therapies

Workshop Objectives

The aim of the workshop is to provide a space for presentations and discussions of recent developments in the application of Bayesian methodology in early pharmaceutical research and health technology assessment.

Presentations on the following topics are particularly welcome:

- Preclinical research, early clinical phases
- Health technology assessment
- Prognosis, prediction, biomarkers
- Meta-analysis, decision making
- Censored or incomplete data, measurement error

Invited Speakers

- Ralf Bender (IQWiG)
- Heinz Schmidli (Novartis)
- Sibylle Sturtz (IQWiG)

Tutorial presenters

- Sebastian Weber (Novartis)
- Heinz Schmidli (Novartis)

Invited discussant

- Norbert Benda (BfArM)

Further Information

Please visit the website of the Working Group:

<http://www.biometrische-gesellschaft.de/arbeitsgruppen/bayes-methodik.html>.

Instructions for Authors

Please send **abstracts** (max. one A4 page, 12pt) of presentations to Christian Röver by email (christian.roever@med.uni-goettingen.de).

The expected length for each presentation is 30 minutes plus discussion. The workshop language will be English.

Important Dates

30/09/2018 Submission deadline for abstracts
15/10/2018 Notification of acceptance of abstracts; publication of the programme shortly thereafter
30/11/2018 Deadline for registration

Registration

For registration for this workshop please send an email with your name and affiliation to christian.roever@med.uni-goettingen.de. There is no registration fee.

Organisers

Dr. Reinhard Vonthein (Universität zu Lübeck)
Dr. Gerhard Nehmiz (Boehringer Ingelheim, Biberach)
Dr. Christian Röver (Universitätsmedizin Göttingen)
