07. / 08. OCTOBER 2021
ACADEMIA MEETS INDUSTRY

Connect – Collaborate – Create

Are you interested in an exchange of experiences and interests in the area of statistical research and data science in drug development?

The "Academia Meets Industry" event brings together

- academic researchers,
- statisticians in the pharmaceutical industry,
- as well as BSc, MSc and PhD students.

Experienced practitioners and researchers from industry and academia are invited to share their professional insights and present perspectives for collaborative projects via short talks. The focus is on potential topics (eg for theses) for BSc, MSc and/or PhD students.

Virtual pair-wise speed dating and/or group discussions on emerging topics will provide the opportunity for all participants to personally interact, share common interests, and to extend their network of possible future collaborators. Special focus will be on the exchange between students/academia and practitioners or researchers in pharmaceutical industry.

If you are interested in participating in this event:

→ Please register under
https://forms.office.com/r/fB4f6sdjxC
until September 17, 2021.

Do you wish to give a short talk?
→ Please refer to *information for presenters*.

Around the end of September we will prepare and share the final agenda with all those who have registered based on the information we have collected from you.

Virtual online event

Promoting
the future of
Medical Statistics

BSc, MSc, and PhD
students are highly
encouraged to
attend

Plenty of room for
networking

Attendance is free
of charge

07. / 08. OCTOBER 2021
ACADEMIA MEETS INDUSTRY

Information for Presenters

- Talks will be 15 minutes long.

- The slides should be in English. Depending on the audience the presentation language can be either English or German.

- After a brief introduction of yourself and your organization please focus your talk on a layman description of possible topics for BSc/MSc/PhD/internships projects and/or possibilities to collaborate. Avoid abbreviations.

- Please indicate whether you think that the topic is suitable for an internship, bachelor, master, or PhD thesis etc.

- If you do not have a specific open research problem at the moment, you can also present general topics you would like to find collaborators for in the future or other possible ways to interact with academia/industry. These can include possibilities for joint bachelor, master or PhD theses as well as grant applications, mentoring, providing real data, offering training courses etc.
Please indicate how you see the partner from academia/industry fitting into these.

Timing (CET):

- afternoon on October 07, 2021

- morning on October 08, 2021

Schedule:

- Short talks

- Q & A

- Speed dating

- Break-out discussions
