An: Biometrische Gesellschaft <biometrische-gesellschaft@tiho-hannover.de>

Liebe Kolleginnen und Kollegen,

mit diesem e-Rundschreiben 113 möchte ich Sie informieren über

1) Das 2tägige Seminar **Adaptive Designs and Multiple Testing** mit Frank Bretz & Tim Friede im Oktober 2015 in Berlin, organisiert durch die [AG Weiterbildung](#), ist bereits ausgebucht.

2) Workshop: New Perspectives in **Multiple Testing** - 80 years after Bonferroni,
9. Oktober 2015, Padua, Italien
[Anmeldung](#), [Programm](#), [Abstracts](#)

3) Workshop zu den Themen "Der **p-Wert** in der Lehre" und "Vorstellung von **Lehrbüchern** zur Statistik/Biometrie" der AG Lehre und Didaktik der Biometrie,
13.-14. November in Heidelberg. [Flyer](#)

4) Workshop **Clinical Trials in Small Populations**,
30. November und 1. Dezember in der RSS, London, England
[Homepage](#)

5) Call for Papers **DAGStat 2016 mit Biometrischem Kolloquium**,
14.-18. März 2016 in Göttingen (s. Anlage)
[Homepage](#)

6) **PSI Conference** Promoting Statistical Insight and Collaboration in Drug Development,
22.-25. Mai 2016 in Berlin, [psiweb.org](#)

7) International Association for **Statistical Education** IASE 2016 Roundtable Conference "Promoting understanding of statistics about society",
19.-22. Juli 2016 in Berlin. [iase-web.org](#)

Viele Grüße

Reinhard Vonthein

* Second Call for Papers of the 4th Joint Statistical Meeting of the Deutsche Arbeitsgemeinschaft Statistik "Statistics under one Umbrella" (DAGStat 2016)
* Registration is now open and we cordially invite you to register for the 4th Joint Statistical Meeting of the Deutsche Arbeitsgemeinschaft Statistik (DAGStat 2016) from March 14 to 18, 2016, in Göttingen.

Under the motto "Statistics under one Umbrella" the planned conference program contains contributions of all areas of statistics and many applications of statistical methods. Scientific exchange between the participating societies is one main aim of the conference. This is reflected by embedding three important annual meetings, the 62. "Biometrisches Kolloquium" (German Region of the International Biometric Society), the 40. "Jahrestagung der Gesellschaft für Klassifikation" (German Classification Society) and the "Pfungsttagung der Deutschen Statistischen Gesellschaft" (German Statistical Society).

For the conference, Aurore Delaigle, Hans Rudolf Künsch, Simon Thompson and Adalbert Wilhelm have agreed to be plenary speakers.

Tutorials will be offered about the topics
"Event Data Analysis" (Robin Henderson),
"Evidence Synthesis" (Guido Knapp, Gerta Rücker, Guido Schwarzer),
"Copulae in Practice" (Ostap Okhrin) and
"Integer-valued Time Series" (Christian Weiß).

Special topics and invited speakers of the conference will be
Rosemary Bailey (Design of Experiments),
Andreas Buja (Visualisation and Exploratory Data Analysis),
Ying Cheng (Psychometrics),
Gerda Claeskens (Mathematical Statistics in Life Science),
Sandrine Dudoit (Statistics of High Dimensional Data),
Peter Goos (Statistics in Natural Sciences and Technology),
Patrik Guggenberger (Empirical Economics and Applied Econometrics),
Marc Hallin (Robust and Nonparametric Statistics),
Larry Hedges (Research Synthesis and Meta Analysis),
Georg Heinze (Education for Statistics in Practice),
Robin Henderson (Survival and Event History Analysis),
Joop Hox (Multilevel and Panel Data Analysis),
Beat Hühner (Official Statistics and Survey Statistics),
Marloes Maathuis (Graphical Models and Causal Inference),
Masahiro Mizuta (Cluster Analysis and Classification),
Byron Morgan (Statistics in Agriculture and Ecology),
Morten Ørregaard Nielsen (Time Series Analysis),
Edzer Pebesma (Computational Statistics and Statistical Software),
Jose M. Peña (Machine Learning),
Lawrence Phillips (Methods for Risk and Benefit Assessment),
Stuart Pocock (Statistics in Clinical and Preclinical Research),
Bertram Raab (Destroying data as a means of data protection - is it ethical?),
Yves Rosseel (Structural Equation Modelling),
Håvard Rue (Penalized and Regularized Regression Analysis),
Olivier Scaillet (Statistics in Finance) and
Max Welling (Big Data and Data Science).

Online registration and submission of abstracts is possible via the conference homepage DAGStat 2016 until December 1, 2015. Note that for the young statisticians session there is a separate, earlier deadline on November 15, 2015.

Please note that the CeBIT fair in Hannover will take place at the same time as DAGStat 2016, so we recommend an early booking for accommodation. Details on travel and accommodation can be found on the conference website as well.

We are looking forward to welcoming you in Göttingen next year,

Thomas Kneib and Henriette Irmer, on behalf of the local organizing committee.
