Bayer is a global enterprise with core competencies in the Life Science fields of health care and agriculture. Its products and services are designed to benefit people and improve their quality of life. At Bayer you have the opportunity to be part of a culture where we value the passion of our employees to innovate and give them the power to change.

Principal Statistician (m/f/d)

YOUR TASKS AND RESPONSIBILITIES

- Take the statistical lead for an indication, compound and/or therapeutic area
- Lead cross-functional virtual teams
- Drive the development and evolution of project, therapeutic area, and global standards
- Provide statistical and methodological consultation on special statistical methodology or on complex statistical, scientific and regulatory issues and mentors other statisticians and/or statistical analysts
- Represent the function with respect to statistical aspects of clinical development programs and products to internal and external stakeholders, including regulatory agencies, collaborations/business partners, KOLs, etc.
- Keep abreast of regulatory and methodological issues, anticipate new needs in the area of responsibility and ensure development of innovative solutions
- Influence decision-making processes during drug development and/or life cycle management by using appropriate statistical methodology (e.g. simulations, meta analyses or modeling approaches)
- Drive development and implementation of innovative statistical methodology as well as coordinate work with academic expects on themes related to the field of responsibility

WHO YOU ARE

- PhD or MS in biostatistics, statistics or mathematics
- Long-term experience as statistician (m/f/d) with significant time spent in the pharma, biotech, or similar sector
- Experience in leading teams of statisticians and/or representatives from other functions
- High level of expertise in multiple fields relevant for statistics sub-function
- Good knowledge of statistical programming languages (including SAS and/or R)
- Demonstrated excellent interpersonal, leadership and communication skills and ability to work both, independently and collaboratively with internal and external visibility
- Ability to support innovation and future-oriented concepts
- Fluent in English and German, both written and spoken

This position can be filled in Wuppertal or Berlin.
