In oncology, hematology, immunology and cardiovascular disease - and one of the most diverse and promising pipelines in the industry - each of our passionate colleagues contribute to innovations that drive meaningful change. We bring a human touch to every treatment we pioneer. Join us and make a difference.

Manager Biostatistics Market Access (m/w/d)

Munich - DE

Beschreibung der Position:

The Manager Biostatistics Market Access will be responsible for projects in the context of benefit assessment according to § 35a SGB V with focus on statistical methodology. This includes the assessment and interpretation of the available evidence, the statistical aspects of the G-BA advice meeting, strategic planning of analyses for the dossier and the written statement as well as the presentation of results during the oral hearing.

The Manager Biostatistics Market Access will work in an interdisciplinary team and in close collaboration with the global Biostatistics & Data Science and HEOR teams.

The Manager Biostatistics Market Access will be participating internal and external working groups to drive methodological discussions and innovations for HTA.

The Manager Biostatistics Market Access will also give statistical support for the medical organization and the business units, e.g. in sample size calculations for non-interventional trials, internal and external statistical trainings.

Qualifikation für die Position:

- Strong academic qualifications in (bio-) statistics, mathematics or biometrics or a comparable course of study with a focus on statistics.
- Professional experience in the field of Health Technology Assessment is desirable - ideally experience in the field of benefit assessment and the associated methodological requirements.
- Knowledge in study design and study data interpretation (basics in statistics), in evidence based medicine methodology (IQWIG methodology) and HEOR methods
- Ability to work against tight timelines and under high pressure.
- Ability to work in cross-functional and cross-national teams
Knowledge of MS Office applications as well with statistical software applications like SAS or R

Broad communication and presentation skills

Fluent in written and oral in German and English.

Around the world, we are passionate about making an impact on the lives of patients with serious diseases. Empowered to apply our individual talents and diverse perspectives in an inclusive culture, our shared values of passion, innovation, urgency, accountability, inclusion and integrity bring out the highest potential of each of our colleagues.

Bristol Myers Squibb recognizes the importance of balance and flexibility in our work environment. We offer a wide variety of competitive benefits, services and programs that provide our employees with the resources to pursue their goals, both at work and in their personal lives.
