medac is a dynamic company that has been growing continuously for over fifty years. More than 2,000 employees work on the further development of medical products and medical devices for the diagnosis and treatment of oncological, urological and autoimmune diseases. We are one of the leading pharmaceutical companies, in particular in the field of niche products.

Your tasks
- Act as global clinical program lead, overseeing multiple trials in a clinical development program
- Lead the clinical program team being accountable in designing, executing and ensuring the reporting of high-quality data
- Supervise the planning and proactive management of clinical program(s)
- Undertake product and therapeutic area reviews and incorporate evidence-based medical and scientific input into trial-related, strategic and regulatory documents
- Responsibility for delivering the medical aspects of clinical development plans and TPPs
- Supply core medical/scientific information required in all clinical documents (e.g. study protocols, clinical trial reports, safety-related documents) and assure preparation of high-quality documents
- Assist in developing publication plans in collaboration with other internal departments
- Clinical and scientific supervision of assigned clinical development programs, including medical monitoring across multiple clinical trials in collaboration with qualified in- or external persons
- Support the evaluation of potential clinical development projects for in- or out-licensing purposes and provide clinical and scientific input to other departments

Your qualifications
- University degree in life science, preferably in medicine
- Extensive international experience in clinical research phases I-III
- Prolific and well-organized regulatory writer
- Know-how in strategic planning, executing and designing clinical development plans and trial protocols
- Experience with regulatory interactions gained during previous submissions to EMA, FDA or PMDA
- Thorough knowledge of GCP/ICH rules and relevant laws and regulations
- Fluent English plus preferably a working knowledge of German
- Team player with strong communication skills
- Excellent analytical skills combined with strategic vision

Our offer
- Your work-life balance is important to us. We offer flexible working conditions with the option of working up to 60% of your hours remotely, 30 annual vacation days and an excellent cafeteria
- Attractive salaries and success-based bonuses for all medac employees
- Individual training opportunities: Our medac academy offers a wide range of programs including leadership training, coaching essentials and language classes
- A funded pension scheme and other social benefits
- We care for our employees beyond the workplace and provide advice on caring for elderly relatives as well as offering counselling and childcare
- We promote sports and activities to improve our employees’ health

If you think you have everything we are looking for and more, we would love to hear from you. Please apply online and upload your documents (CV, letter of motivation, certificates), including your salary expectation and your earliest possible starting date. Please note that we will not be able to return postal applications.
