The University of Essex is advertising two Professor positions and five Lecturer/Senior Lecturer/Reader positions in the field of Data Science and Statistics (job titles ‘Data Science and Statistics', ‘Statistical Data Science' or ‘Statistics'). The positions are allocated in the Department of Mathematical Sciences (DMS) and provide the opportunity to engage with the Institute of Analytics and Data Science (IADS) of the University of Essex. The vision of IADS is to use analytics and data science to develop lasting solutions that transform the world for the benefit of individuals and communities.

DMS has three research groups: Data Science, Mathematics and Mathematics Education and offers undergraduate and postgraduate courses in the fields of:

**Actuarial Science** (BSc Actuarial Science, BSc Finance and Mathematics, integrated MSci Actuarial Science and Data Science, MSc Actuarial Science, MSc Mathematics and Finance),

**Data Science** (BSc Data Science and Analytics, BSc Statistics, MSc Data Science (1 year), MSc Data Science with Professional Placement (2 year), conversion MSc Applied Data Science, conversion MSc Data Science and Its Applications, MSc Optimisation and Data Analytics, MSc Statistics) and

**Mathematics** (BSc Mathematics, BSc Mathematics with Physics, BSc Mathematics with Computing, BSc Economics and Mathematics, integrated MMath Mathematics, integrated MSci Mathematics and Data Science, MSc Mathematics).

In recent years the department and the University was and is very successful in developing, offering and growing together with the School of Computer Science and Electronic Engineering (CSEE) cutting edge master courses in Data Science especially by working together in Knowledge Transfer Partnerships (KTP) funded by Innovate UK and ESRC with companies as Profusion Ltd., Mondaq Ltd., and others and including academics from the Department of Mathematical Sciences (DMS), School of Computer Science and Electronic Engineering (CSEE), Essex Business School (EBS) and others.
