# Workshop on Computational Models in Biology and Medicine

February 4-5, 2020 | Bonn, Germany

## KEYNOTE SPEAKERS

**Fabien Crauste**, Université de Bordeaux

**Dagmar Iber**, ETH, Zürich

**Malte Lücken**, Helmholtz Zentrum, München

**Volker Roth**, University of Basel

## SESSIONS

Genomics and proteomics

Single-cell data analysis

Statistical modeling and machine learning

Dynamical modeling

Open Topics

## DEADLINES

**Registration:** Jan 7, 2020

**Abstract submission:** Dec 13, 2019

Participation in the workshop is free.

This workshop intends to bring together researchers from different research areas such as bioinformatics, biostatistics and systems biology, who are interested in modelling and analysis of biological systems or in the development of statistical methods with applications in biology and medicine.
